**AUTOMATIC UPDATES** - We regularly update some of your income and asset details automatically based on information provided by various sources. If any of the following apply to you, it may change the rate of your payment:

- On the first workday of each month the new exchange rate will be applied to any Foreign Pension and some income and assets that are recorded in foreign currency.
- In March and September each year we revalue shares, securities and unitised managed funds based on the latest unit prices we have available.
- Any changes to deeming rates throughout the year will change the amount of deemed income from financial investments.
- We use current market value when we assess your property. We apply an indexation amount to houses, townhouses and units each year. This keeps the value current and ensures you get the right payment amount. Where indexation cannot occur, we will determine if we need to update your property value every 2 years. For more information, go to [servicesaustralia.gov.au/realestateassets](http://servicesaustralia.gov.au/realestateassets)
- Each year the value of Commonwealth and State Government Defined Benefit Income Streams will be updated in line with the fund's Consumer Price Index.
